Case study details

Client need

Social Value International and the Natural Capital Coalition required technical support to write a discussion paper on the Social Value Principles and the Natural Capital Protocol. The paper was needed to provide a comprehensive understanding of social and environmental value in the context of these two frameworks. The aim of the discussion paper was to provide readers with an understanding of these two approaches and how to use them in combination to account for natural and social concerns.

The challenge

- Stakeholder engagement across the technical approaches related to natural and social capital measurement.
- Mapping the relationship between natural and social capital
- Scaling up the discussion paper into actionable points.

Outputs and results

Discussion paper on 'The Relationship between Social Value Principles and the Natural Capital Protocol'.

What happened next

The paper can be accessed [here](#). Little Blue Research continues to provide inputs into the development of various industry thought leadership and frameworks.
