

LITTLE BLUE RESEARCH CASE STUDY

Principles of integrated capitals assessment

Client: Sustain Value and Consciam for the Capitals Coalition

Client size: SME

Little Blue Research supported the development of the Capitals Coalition Principles of Integrated Capitals Assessment, in collaboration with Sustain Value and Consciam. This work brought together existing knowledge and positions on how to measure and value natural, social and human capital in an integrated assessment.

Service: Research & training

Capital: NATURAL | SOCIAL | HUMAN | PRODUCED

Case study details

Client need

Little Blue Research provided expert review and input into the development of the Capitals Coalition Principles of Integrated Capitals Assessment with Sustain Value and Consciam. The collaborative work aimed to 'provide guidance and consistency in how to apply a capitals approach through integrate thinking, ultimately moving towards a more standardised approach for integrated capitals assessments.

The challenge

- Providing insights for the new principles of integrated capitals assessment.
- Engaging a large group of experts across multiple sectors to gain diverse feedback and input.
- Incorporating diverging points of view and developing principles to bring these together.
- Considering issues such as aggregating capitals and managing trade-offs.

Outputs and results

- ✓ Final report: [Principles of Integrated Capitals Assessments](#).
- ✓ Document review and incorporation of consultation comments and inputs into the final document.
- ✓ Preparation of responses to consultation feedback.
- ✓ Case study illustrating differences between single, multi and integrated capitals assessments.

What happened next

The Capitals Coalition intend to further develop the Protocols, incorporating the work of these Principles. Little Blue Research presented this work as part of the We Value Nature 10-Day Business Challenge alongside Sustain Value and Consciam.
